PROFILE

Tech Lead, Solution Architect and AI Engineer with 8+ years building distributed .NET platforms, cloud-native systems on Azure & AWS, and agentic AI. I turn ambiguous problems into resilient, scalable architecture while staying hands-on with the code.

EXPERIENCE

Tech Lead, Product Engineering — Accelya

Sep 2023 – Present

- › Lead product engineering teams; own architecture for a product catalogue platform and an AI-driven UI initiative.
- › Design microservices with clean architecture, DDD, CQRS and event-driven patterns on Kubernetes (Azure & AWS).
- › Built an agentic AI proof-of-concept: RAG over a vector database with LLM orchestration grounded in domain data.
- › Drive quality: CI/CD on Azure DevOps & GitLab, SonarQube gates, JFrog artifacts, Terraform IaC.

Application Development → Senior Engineer — Accenture

Oct 2017 – Sep 2023

- › Delivered enterprise .NET applications for global clients; grew from developer to senior engineer.
- › Built REST APIs and services on .NET Core with MS SQL and NoSQL stores, containerized with Docker.
- › Practiced Agile delivery end-to-end: design, code review, automated testing and production support.

CORE SKILLS

Architecture: Microservices · Clean Architecture · DDD · CQRS · Event-Driven · REST APIs

Languages: C# / .NET Core · Python · TypeScript · JavaScript · SQL

Cloud & DevOps: Azure · AWS · Kubernetes · Docker · Terraform · Azure DevOps · GitLab · SonarQube · JFrog

AI & Frontend: RAG · Vector DBs · LLM Orchestration · React · Next.js

CERTIFICATIONS & EDUCATION

AWS Solutions Architect – Associate (Dec 2025) · AWS Developer – Associate (May 2024)

Azure Developer Associate (May 2022) · Azure Fundamentals (Aug 2020)

B.E. — Sinhgad College of Engineering, Pune
